

“IT’S TRUE WHAT THEY SAY, A GOOD SET OF TIRES CHANGES A TRACTOR!”

- Adrian Morris (Host of the YouTube Channel iFarmWeFarm - County Cavan, Ireland)

Adrian hosts the popular YouTube Channel iFarmWeFarm where he regularly posts videos about his day to day life on his family run Dairy Farm. Adrian is a second generation farmer with a passion to show what real farming is all about.

ALLIANCE
ENGINEERED TO KEEP YOU AHEAD

Our AGRI STAR II tires were designed and developed in close collaboration with farmers so that we can meet their challenges head on. We made sure that they meet the highest standards, but the real measurement of success lies in their experience using them.

“SINCE WE UPGRADED OUR TIRES TO THE AGRI STAR II WE FELT THE BENEFITS FROM DAY ONE. BETTER TRACTION & SUPREME QUALITY AT A GREAT PRICE. NOT TO MENTION HOW GOOD THEY LOOK. ALREADY LOOKING FORWARD TO FITTING THEM TO OUR SECOND TRACTOR.”

- Adrian Morris (Host of the YouTube Channel iFarmWeFarm - County Cavan, Ireland)

ADVANCED TECHNOLOGY

Agricultural tires get their most advanced upgrade. AGRI STAR II is designed to perform outstandingly well in the field and it pleases the eye as well.

Its elegant sidewall is inspired by the elements earth and water, emphasising the modern connection between a tractor and land. And its innovative lug with Stratified Layer Technology raises the bar of on-field performance across the industry.

Stratified Layer Technology (SLT)
– a unique combination of multi-angled lugs.

Every lug consists of 2 layers with different angles: when the top layer is worn out (after 40% of NSD wear), the bottom layer comes into action – the lug changes its geometry and provides as good a traction as if it is a completely new tire.

SLT ensures superior on-field performance and durability even after prolonged wear.

PERFORMANCE DESIGNED TO BOOST YOURS

- IMPROVED ANTI-SKIDDING as two layers with different profiles increase the in-contact area.
- EXCELLENT SELF-CLEANING as dual step tie-bars prevent lug shuffling and act as mud breakers.
- ENHANCED ROADABILITY due to overlapping central lugs.
- LONGER LIFE-SPAN thanks to special stubble guard and a wear-resistant compound that protects against damage.
- OUTSTANDING STABILITY due to a robust, polyester casing construction.
- CROP PROTECTION thanks to a lug angle nose design and a smooth profile to prevent crop damage.

Superior Grip

Long Life

Excellent Roadability
